## VARIASI PRODUK

VIRTUAL  
PRIVATE  
DATA CENTER

Layanan IaaS berupa komponen pembentuk server: core CPU, RAM, dan storage, yang dapat disusun pelanggan sesuai kebutuhan melalui portal pengelolaan dan pengaturan Cloud berbasis web.

VIRTUAL  
PRIVATE  
DATA CENTER

IaaS solution of server-building components: CPU cores, RAM, and storage, which users can arrange as needed through web-based cloud management and management portal.

ENTERPRISE  
VIRTUAL  
MACHINE

Layanan IaaS berupa sewa server virtual yang berlokasi di Data Center ICON+ dengan sistem operasi yang dapat dijalankan terpisah untuk setiap server. Terdapat dua pilihan Virtual Machine: Basic dan Ultimate.

ENTERPRISE  
VIRTUAL  
MACHINE

Infrastructure as a Service (IaaS) solution of virtual servers located in ICON+ Data Center with a dedicated operating system for each server. There are two Virtual Machine options: Basic or Ultimate.

HOSTED  
PRIVATE

Layanan IaaS berupa Private Cloud terdedikasi, dengan spesifikasi pengaturan perangkat server, storage, dan platform virtualisasi dapat menyesuaikan kebutuhan pelanggan serta dilengkapi sistem pengamanan dan caging di area colocation ICON+.

HOSTED  
PRIVATE

IaaS solution of dedicated Private Cloud, with customizable specifications for server devices, storage, and virtualization, tailored to customer requirements, equipped with a security system and caging in the ICON+ colocation area.
